

Contribution Statement–Deep Learning Project Evaluation

Project Title: Apnea Detection_____

Group Number (from iLearn): 14_____

Name	Main Contributions	Estimated Share (%)
Samuel Braga Marques	Data Preprocessing, a baseline model from scratch design and later parameter tuning.	25
Miguel De Menezes Coelho	Conv block and model design	25
Juan Francisco Cortez Hervas	Classical Baseline Implementation ExtraTreesClassifier feature-based pipeline for second model.	25
Popescu Ianis-Stephan	Classical ML evaluation, analysis, model design and results	25

We confirm that the above information reflects, to the best of our knowledge, the contributions of each group member to the project.
